✓605 v. 50

Index to Volume L

January-December, 1922

A

Abrasive Wheels, Revised Safety Code for ... 496
Accidents Prevented by Eye Protection ... 844
Acid Dip for Coloring Brass Castings ... 876
Acid Resisting Iron ... 240
Adaptable Molding Machine Co. Equipment ... 170
Adds Cerium to Brass and Iron ... 542
A. F. A. Co-operates with Testing Society ... 945
A. F. A. to Hold Meeting in Cleveland ... 928
Air and Electric Machine, Develops ... 75
Air Compressor Driven by Superheated Steam ... 214
Air Furnace Design ... 588
Air Furnace Iron ... 108
Air, Gun Designed to Supply Blast of ... 213
Air Pressure is Low, Buzzer Indicates When ... 380
Air Required in Cupola Melting ... 156
Air Squeezer, Valve Adjusts Pressure ... 519
Air Tight Metal, Care Required to Make ... 545
Allis-Chalmers Mfg. Co. How Large Engine Parts are Made-I ... 67
Allis-Chalmers Mfg. Co. How Large Engine Parts Are Made—II ... 115
Alloy
  Age Hardening, Research Covers ... 822
  Aluminum Match Plate ... 113
  Cheap Pattern ... 113
  Die Casting ... 675
  Develops High Heat Resisting ... 265
  For Aluminum Match Plate Castings ... 113
  For Aluminum Solder ... 546
  For Brass Bushings ... 456
  For Brass Sleeve ... 456
  For Core Driers ... 1007
  For Long Sleeve Is Not Balanced ... 456
  Has Appearance of Pure Nickel ... 73
  Not Suitable for Casting Purposes ... 366
  Resists Pressure, Special Aluminum ... 798
  Soft Ductile ... 32
  Trouble with Zinc Base Die Casting ... 573
  White Metal ... 113
Alloy Additions, Slide Rule to Calculate ... 932
Alloy Casting, Desires a Soft Aluminum ... 514
Alloys
  As Shown by a Small Size, Character of ... 961
  Antifriction Metal ... 419
  Bearing Metal ... 1007
  Brass. Battery Terminals ... 333
  Cast Nickel-Chromium ... 452
  Coloring Cheap ... 1007
  Cracking in Aluminum ... 669
  For Air Tight Castings ... 545
  For Ice Cream Machines, Nickel ... 228
  For Letters ... 455
  For Sprinkler Heads ... 333
  For Pattern Plates, White Metal ... 113
  For Use in Rolling Mills, Bearing ... 282
  For White Brass and German Silver ... 456
  Hard Bronze ... 142
  Low Melting Point ... 203
  Melting Nickel in ... 142
  Of Aluminum Froth ... 203
  Of Aluminum with Silicon ... 30
  Of Lead, Melting ... 113
  Producing Manganese Bronze ... 587
  To Resist Frictional Wear, Brass ... 32
  Tough Aluminum ... 419
  To Harden and Deoxidize Nickel ... 675
Alterations Should Be Distinct, Drawing ... 291
Aluminum
  Deoxidize ... 505
  Do Not Mix Readily, Lead and ... 760
  Duplicate Articles Die Cast in ... 798
  Heated Sulphuric Acid Attacks ... 760
  Improvize Melting Pot for ... 282
  In Brass Castings ... 32
  In Brass Held to a Minimum ... 333
  In Electric Furnace, Melts ... 345
  In the Core Oven Fire, Melted ... 208
  Is Pitted When Poured Too Hot ... 514
  Method of Chill Casting ... 74
  Shrinkage of ... 30
  Sulphuric Acid Attacks ... 760
  Will Not Cure Porosity, Fluxes for ... 228
  With Silicon, Alloys of ... 30
Aluminum Alloy
  Resists Pressure, Special ... 798
  To Look Like Gun Metal ... 74
  Varies, Contraction ... 966
Aluminum Alloy Casting, Desires Soft ... 514
Aluminum Alloys, Cracking in ... 669
Aluminum Alloys, Tough ... 419
Aluminum and Calcium Absorbed from Refractories ... 33
Aluminum and Lead Do Not Mix Readily ... 760
Aluminum Becomes Hard Through Remelting ... 714
Aluminum Bottle Shaped Castings Crack ... 827
Aluminum Bronze, Casting of ... 958
Aluminum Castings
  Blister Forms on ... 675
  From Cracking, Stop ... 827
  Pin Holes Are Found in ... 113
Aluminum, Controlling Shrinkage in ... 638
Aluminum Cowl, Makes Large ... 820
Aluminum Crank Cases with Oil Pipes Cast in ... 895
Aluminum Froth, Alloys of ... 203
Aluminum Match Plate Castings, Alloy for ... 113
Aluminum Melting Practice—I ... 737
Aluminum Melting Practice—II ... 792
Aluminum Melting Practice—III ... 823
Aluminum Melting Practice—IV ... 866
Aluminum Melting Practice—V ... 919
Aluminum Mixture for Pressure Cookers ... 282
Aluminum Patterns Used for Bath Tub Castings ... 935
Aluminum Pig to Make Patterns, Scrap and ... 74
Aluminum Piston Mixture ... 228
Aluminum Plate, Precautions Taken in Casting Flat ... 925
Aluminum Plates
  Casting ... 455
  Discoloration of ... 715
  Stained ... 1007
Aluminum Produces Gas from Water in Sand ... 455
Aluminum Production Fell in 1921 ... 562
Aluminum Shop Built for Economical Production ... 385
Aluminum Solder, Formulas for Babbitt and ... 456
Aluminum Solder, Suggest Mixtures for ... 546
Aluminum Turnings, Melt ... 876
American Foundry Methods Described ... 979
American Iron Castings, Study ... 554
American Society for Testing Materials, Annual Meeting of ... 595
Ammonia Fittings, Find Gas Holes in ... 662
Analyses of Close and Open Structure Specimen ... 279
Analyses of Electric Furnace Iron ... 863
Analysis
  Aids Metallurgists, Spectrum ... 317
  Character of Alloys Shown by ... 961
  Engine Castings Requirements Rigid ... 311
  Of Ingot Molds Important Factor ... 157
  Of Piston Ring Iron ... 748
  Of Silica Sand, Preparation and ... 884
Analytical Methods for Iron and Steel ... 725
Analyzes Sand Screen Tests ... 752
Ancient French Foundry Practice ... 332
Anneal Electrically, Melt and ... 609
Annealing Malleable Castings ... 622
Annealing Malleable Shown Microscopically, Effects of ... 185
Annealing Malleable with Powdered Coal ... 880
Annealing Process, New Metal for ... 265
Annealing Prolongs Life of Ingot Molds ... 703
Annealing Temperatures for Cupola Malleable ... 952
Anneals Not Packed, Malleable ... 457
Antartic Foundry ... 243
Antifriction Metal, Color in ... 876
Anvils from an All-Scrap Charge, Makes ... 108
Apply Metallography to Gray Iron—I ... 53
Apply Metallography to Gray Iron—II ... 109
Apprentice Training in the Foundry ... 875
Arc Welding Lead, Develops Semiautomatic ... 39
Arcade Malleable Co., Worcester. Handling Malleable Castings ... 733
Arcade Malleable Iron Co. Laboratory ... 247
Art Bronze Castings from the Orient ... 632
Association Meets in Nancy, French Foundry ... 909
Association, Pig Iron Dealers Form ... 929
Australian Firm, Acquires ... 621
Auto Castings, Making Packard—I ... 131
Auto Castings, Making Packard—II ... 180
Automobile Castings. British Motor Castings Methods—III ... 103
Automobile Castings Production ... 797
Automobile Cylinder Molding ... 301
Automobile Cylinders, Casting Chevrolet ... 565
Automobile Cylinders, Using Metal Faced Cores in ... 684
Automobile Foundry Completed at Muskegon ... 29
Automobile Parts, Molding ... 45
Automobile Trim, Castings for ... 203
Automotive Castings, British Methods of Making—IV ... 149
Automotive Castings of Aluminum ... 895
Automotive Casting Plants in Europe ... 900
Awards at the Rochester Exhibition, Will Make ... 266
Axle Housing, British Method of Casting ... 198

B

Babbitt
  And Aluminum Solders, Formulas for ... 456
  Cannot Color ... 876
  Zinc Injurious to ... 674
Babbitt Metal, Zinc Must Be Kept Out of ... 419
Bag Holder for Packing Castings, Designs ... 975
Baking Cores, Air Required for ... 695
Baking Cores, Fuel Required for ... 885
Bale Nickel Scrap and Melt Under Cover ... 827
Ball Mills, Liners for ... 240
Balls, Forming Iron ... 556
Balls Present Pouring Problem, Hard Iron ... 918
Banking the Cupola ... 721
Barrel, Eccentric Tumbling in Sand-Blast ... 380
Bath Tub Castings, Molding ... 935
Bath Tub Flask Design ... 381
Bath Tubs, Molding and Casting ... 997
Batteries, Remelting Lead Plates from ... 638
Battery Terminals, Casting Red Brass for ... 333
Bearing Alloys for Use in Rolling Mills ... 282
Bearing Bronzes, Hot Mill ... 73
Bearing Metal Alloys ... 1007
Bearings Break, Hot Mill ... 514
Bearings May Be Poured Too Hot, Bronze ... 714
Bed Plates for Engines, Loam Molding ... 701
Bedded in the Floor, Patterns Are ... 911
Bedding in a Pulley Pattern ... 716
Belgian Machine, Squeeze Pattern Draw ... 993
Bellows for Dusting Blacking in Molds ... 853
Belgium, Typewriters Made in ... 497
Belt, Molding an Evaporator ... 666
Belt Sander, New ... 126
Bench Grinder, Builds ... 689
Benedict Nickel Formed ... 334
Benefits from Industry's Rebound ... 475
Bill Casts a Hub on a Steel Wheel ... 506
Bill Comments on the Law of the Land ... 1003
Bill Discovers Why Castings Warp ... 448

Bill Discusses Foundry Troubles ... 63
Bill Discusses Pulley Molding Problems—I ... 551
Bill Discusses Pulley Molding Problems—II ... 598
Bill Discusses Pulley Molding Problems—III ... 716
Bill Discusses Pulley Molding Problems—IV ... 757
Bill Discusses Pulley Molding Problems—V ... 802
Bill Discusses Pulley Molding Problems—VI ... 834
Bill Hears a Remarkable Gear Story ... 27
Bill Is All Set for the Rochester Show ... 412
Bill Learns a Little About Politics ... 877
Bill on Pattern Mounting Methods—I ... 99
Bill on Pattern Mounting Methods—II ... 146
Bill on Pattern Mounting Methods—III ... 195
Bill on Pattern Mounting Methods—IV ... 240
Bill on Pattern Mounting Methods—V ... 283
Bill on Pattern Mounting Methods—VI ... 329
Bill on Pattern Mounting Methods—VII ... 356
Bill Receives a Remarkable Document ... 964
Bill Renews His Youth with Music ... 506
Birmingham Conference of I. B. F. ... 584
Birmingham Foundrymen's Exhibit ... 580
Birmingham Show
  Model Foundry at the ... 644
  Model Foundry for the ... 157
  Prizes Awarded at ... 641
Blacking in Molds, Bellows for ... 853
Blast Furnace Tuyeres, Copper Castings for ... 960
Blast Pressure for Cupola ... 914
Blast Pressure, Slow Melting Due to Low ... 833
Blisters Occur Casting, Copper Tuyeres ... 281
Blow Torch Principle Applied to Open-Hearth ... 990
Blower, When to Start the ... 246
Blowers, Small Positive Pressure ... 689
Blowholes in Bronze Sleeves ... 925
Blowholes in Castings, Details Causes of ... 280
Boiler Sections Are Made, How ... 267
Boiler Sections, Molding Methods for ... 20
Bonvillain, Ph. & E. Ronceray Molding Machines ... 153
Book Review
  Aluminum and Its Alloys ... 428
  American Malleable Cast Iron ... 917
  Analysis of Non-Ferrous Alloys ... 649
  Burning Liquid Fuel ... 499
  Course in Mechanical Drawing ... 101

Experiment with Electric Iron ... 863
Winne, H. A.
To Melt Steel in a New Induction Furnace ... 8
Wise, John D.
Preventable Variation in Weight ... 722
Woyski, B. and John W. Boeck
Gas Absorption and Oxidation ... 571

Y

Young, H. J.
Engine Castings Requirements Rigid ... 311

Data Sheets, Volume L

January-December, 1922

Nos. 411 and 412, Jan. 1. Routine Analytical Methods.
Nos. 413 and 414, Jan. 1. Routine Analytical Methods.
Nos. 415 and 416, Feb. 1. Routine Analytical Methods.
Nos. 417 and 418, Feb. 15. Routine Analytical Methods.
Nos. 419 and 420, March 1. Routine Analytical Methods.
No. 421, March 15. Routine Analytical Methods.
No. 422, March 15. Method for Laying Out Angles.
No. 423, April 1. Hardness Curves for Copper-Tin and Copper-Zinc Alloys.
No. 424, April 1. Approximate Analyses of Tin.
No. 425, April 15. S Hook for Flask Equipment.
No. 426, April 15. Safe Loads for Ropes and Chains.
Nos. 427 and 428, May 1. Nonferrous Alloys Recently Patented.
Nos. 429 and 430, May 15. Routine Analytical Methods.
Nos. 431 and 432, June 1. Routine Analytical Methods.
Nos. 433 and 434, June 15. Routine Analytical Methods.
Nos. 435 and 436, July 1. Routine Analytical Methods.
Nos. 437 and 438, July 15. Formula for Finding Weight of Cast Steel Segmental Bar.
No. 439, Aug. 1. Weight of Cast Iron Fillets Per Running Inch.
No. 440, Aug. 1. Weight of Cast Steel Fillets Per Running Inch.
Nos. 441 and 442, Aug. 15. Barrel Patterns.
No. 443, Sept. 1. Units of Caloric Value.
No. 444, Sept. 1. Heat Required to Melt and Superheat Aluminum.
No. 445, Sept. 15. Heat Required to Melt and Superheat Aluminum.
No. 446, Sept. 15. Data on Aluminum Alloys.
Nos. 447 and 448, Oct. 1. Method for Analysis of Manganese Bronze.
No. 449, Oct. 15. Physical Properties of Aluminum.
No. 450, Oct. 15. Properties of Alloys of Copper and Zinc.
Nos. 451 and 452, Nov. 1. Microscopy of Cast Iron.
Nos. 453 and 454, Nov. 15. Microscopy of Cast Iron.
Nos. 455 and 456, Dec. 1. Microscopy of Cast Iron.
Nos. 457 and 458, Dec. 15. Microscopy of Cast Iron.
